 Q

This unit holds a tremendous amount of files in a very little space. It is designed to be a stand alone rack, with or without wheels. The standard 3 tier unit is the most popular but this rack can be ordered in just about any configuration and all we need is your space requirements (W/D/H). The rows are adjustable to fit the type and size of your file jacket and the system grows to meet your needs. Add another level to any rack for \$ 80.00 including posts 96", 108", or 120" and all applicable beams and rods. Specify post height when ordering. Custom sizes available, call for quote. * Rack prices do not include jackets. See our [Heavy Duty Tag Jackets](#) and [See-Thru-Vinyl Jackets](#) pages for sizes & pricing. Other rack sizes are available. Call for details. Rack capacity averages 4 jackets per inch including space for finger room.

Â

| Capacity | Width | Depth | Height | Cost |
|-----------------------------------|-------|-------|--------|-------|
| 200 Jackets (24 x 30 and smaller) | 24" | 24" | 84" | \$288 |
| 300 Jackets (24 x 30 and smaller) | 36" | 24" | 84" | \$339 |
| 400 Jackets (24 X 30 and Smaller) | 48" | 24" | 84" | \$401 |

Â This product is too large for standard UPS shipment.

Please select your rack size and add it to the shopping cart.Â Once you complete the online process, a representative will call you with the freight charges to complete the order.
