

Big Blueprint Hanger

Big Blueprint Hanger

4 Tier X-Span Rack

\$391.00

This unit holds a tremendous amount of files in a very little space. It is designed to be a stand alone rack, with or without wheels. The standard 3 tier unit is the most popular but this rack can be ordered in just about any configuration and all we need is your space requirements (W/D/H). The rows are adjustable to fit the type and size of your file jacket and the system grows to meet your needs. Add another level to any rack for \$ 80.00 including posts 96", 108", or 120" and all applicable beams and rods. Specify post height when ordering. Custom sizes available, call for quote. * Rack prices do not include jackets. See our [Heavy Duty Tag Jackets](#) and [See-Thru-Vinyl Jackets](#) pages for sizes & pricing. Other rack sizes are available. Call for details. Rack capacity averages 4 jackets per inch including space for finger room.

Capacity	Width	Depth	Height	Cost
400 Jackets (14 x 15 and smaller)	24"	18"	84"	\$391
600 Jackets (14 x 15 and smaller)	36"	18"	84"	\$442
800 Jackets (14 x 15 and smaller)	48"	18"	84"	\$504

This product is too large for standard UPS shipment.

Please select your rack size and add it to the shopping cart. Once you complete

the online process, a representative will call you with the freight charges to complete the order.
